file_create 2

Index **3**

`file_create` *Create or resize files*

Description

Create or resize files

Usage

```
file_create(file, size)

file_resize(file, size)

file_resize_off(file, size)
```

Arguments

`file`	Path name.
`size`	Size in bytes.

Value

Input `file`, invisibly.

Examples

```
tmp <- tempfile()
file_create(tmp, 10)
file.size(tmp)
file_resize(tmp, 5)
file.size(tmp)
file_resize_off(tmp, 10)
file.size(tmp)
```
