

# oVirt Infrastructure

November 9, 2012

Mike Burns  
oVirt Project Manager  
Red Hat, Inc

# Agenda

- Introduction
- Services provided
- Jenkins
- Foreman/Puppet
- Wiki/Website
- Coming Soon
- Discussion

oVirt

## Introduction

# What is the infrastructure team?

*The oVirt Infra Team is a volunteer effort to provide community infrastructure services by following the tenets of open source and accepted professional standards of system administrators.*

oVirt

Services

# Services

- Jenkins
- Website
- Foreman/Puppet server
- Gerrit
- Etherpad
- Github mirror
- ovirtbot (IRC bot)

oVirt

Jenkins

# Jenkins

- <http://jenkins-ci.org/>
- A continuous integration tool
- Runs new builds continuously
- Executes tests on new builds
- Most oVirt projects are building there
- <http://jenkins.ovirt.org>

# oVirt

Foreman & Puppet

# Foreman and Puppet

- <http://theforeman.org/>
- Still WIP
- Standardize config of all hosts
- Easily on-board new Jenkins slaves
- Easy to rebuild in case of system failures

oVirt

Wiki and Website

# The Website

- Base site (Currently Wordpress)
- Wiki (Mediawiki)
- Releases structure (standard httpd directory)
- Site design is being redone
- Moving to all-Mediawiki

oVirt

Coming Soon

# Hosting

- Currently on a variety of services
  - Linode, EC2, Openshift, and a couple community provided boxes
- Moving away from EC2 and linode
- Some services are going to OpenShift
  - Web Site, wiki, etherpad (already there)
- Alter Way (<http://www.alterway.fr/>)
  - Will be hosting Jenkins, Gerrit
- Red Hat will be providing some hardware as well
  - To be used for backup/redundancy

oVirt

Discussion and Questions

# Contacting the Infra Team

- Mailing List: [infra@ovirt.org](mailto:infra@ovirt.org)
- IRC: #ovirt on oftc.net
- Web Site: <http://www.ovirt.org>
- Trac: <http://fedorahosted.org/ovirt>

oVirt
