Primary Processing States

RFCs published from 2009 to 2019

Since IETF 104

- Published 73 RFCs (1997 pages; 29 Mar – 15 Jul)
- Focused on document production (37% increase in pubs over Q1)
- Added HTML versions of RFCs to rfc-editor.org
- Continued to use id2xml to create an XML file when no usable source file was provided.

Format-Related Activities

- Testing v3 tools and reporting bugs
- Learning v3 vocabulary
- Testing updates to publication, archiving, and errata-related software
- Drafting internal procedures
- Updating user documentation (e.g., xml2rfc FAQ)
- Converting v2->v3 files for review by xml2rfc-dev and RFC authors
- **Preparing for transition (late August 2019)**

Ongoing Activities

- Continue to edit and publish documents
- Continue with v3-related work
- Work with RSE on rfc7322bis (RFC Style Guide)
Will evolve as v3 features are used
- Post files with verified errata in-line in experimental area
